

Dynamic Storage Solutions (DSS)

Add a Scalable and Affordable Storage Option to Your Network

Dynamic Storage Solutions (DSS) offers your organization a secure, elastic and affordable storage options for large volumes of data.

Work with the Sky Data Vault team to design and implement a seamless and secure storage option for critical files, folders, and other data essential to your business, setting your business up for success.

Storage For Your Essential Data

Benefits of DSS:

- Works seamlessly with your existing production network whether it is on site, in a data center, or in a public cloud
- Supports single TB's requirements up to 100's of TB requirements
- Allows your organization to refocus on their core mission while having full confidence the system is working and data is available when it is needed
- Ensures around-the-clock support 24/7/365 from U.S.-based support teams
- Offers flat monthly fee with no hidden charges
- Provides all-inclusive service monitoring, software maintenance and support

Organizations That Need DSS:

- Want to avoid large capital expenses for storage hardware
- Want a scalable solution with known pricing
- Want to refocus time and effort on core applications
- Want simple ways to budget for the requirements of their business.
- Want predictable monthly costs
