

Microsoft Office 365® Backup

Protect Mission Critical Data with Microsoft Office 365® Backup

Microsoft Office 365® Backup protects the email, OneDrive and SharePoint data essential to your business and extends the availability of that data well beyond Office 365®.

Benefits of Office 365® Backup:

- Assists with retention, recoverability and compliance requirements pertaining to your data stored in Office 365®
- Automated, fully managed protection for emails, SharePoint and OneDrive data
- Storage that exceeds Office 365® retention policies
- Meets compliance and regulatory requirements
- Allows your organization to refocus on their core mission while having full confidence that data stored in Office 365® is available when it is needed
- Ensures around-the-clock support 24/7/365 from U.S.-based support teams

Organizations That Need Office 365® Backup:

- Want to maintain ownership of the organizations' data stored in Office 365®
- Are concerned with accidental deletion and recoverability of important data and want the ability to recover files and folders with search functionality
- Want to keep employee files and emails accessible and protected during and after employee departure
- Understand the risk of external threats from malware, viruses, hackers, and ransomware
- Must meet compliance requirements for data retention and recoverability
- Want an easy, cost-effective, per user pricing for a managed service so they can stay focused on the mission of the organization

Microsoft Office 365® Backup

The 3 tables below illustrate the added retention and recoverability options provided by Sky Data Vault:

Microsoft Exchange

	1 Week	1 Month	3 Months	1 Year	2 Years	5 Years	7 Years
Active Exchange inbox or folder data	In Office 365®*				Moved to archive**		
	Retained and recoverable with Sky Data Vault Backup***						
Deleted Exchange items	Trash folder (90 days)			Recycle Bin 1 (14 days)	Recycle Bin 2 (30 days)	Permanently deleted	
	Retained and recoverable with Sky Data Vault Backup						
Employee leaves the company, Exchange account deleted	In Office 365®	Recycle Bin	Permanently deleted				
	Retained and recoverable with Sky Data Vault Backup						

* If using Microsoft Office 365® Business Essentials or Business Premium, 50 GB of active data storage is available.

** If using Microsoft Office 365® Business Essentials or Business Premium, 50 GB of archive data storage persists as long as the subscription is active. If a user account or mailbox is deleted, after 90 days, the archive is permanently deleted. Admins must set up archiving rules, or end users must manually move items into the archive.

*** Active data is backed up on an ongoing basis (every 4 hours), and for seven years all restore points are maintained. Active data restore points more than seven years old will be deleted.

NOTE: This data is accurate as of January 2022.
